

2011 Prague Symposium - [status of YSPS 2 May 2011]

Young Scientists' Poster Session, poster paper titles Národní dům na Vinohradech / The National House of Vinohrady, Společenský sál (www.nardum.cz) Opening on 21 June at 18:00, closing 24 June 2011 at 12:00		
Poster Title	Project id.	Author list
Laser Spectroscopy and Lidar Measurements for the Investigation of Rayleigh-Brillouin Scattering (RBS) in Air	5291 Lidar Cal/Val	Benjamin Witschas, Oliver Reitebuch, Christian Lemmerz, Engelbert Nagel, Maria Ofelia Vieitez, Eric-Jan van Duijn, Willem van de Water, Wim Ubachs
Retrieving of Inhalable Particulate Matter Based on Landsat TM Image	5295 EO & Sport Events	Zhao Wenhui, Gong Huili, Zhao Wenji, Li Xiaojuan, Tang Ming
Sensitivity Studies of Atmospheric COR2R Retrieval at Near Infrared Band	5311 EGOMO	Dongxu Yang, Yi Liu
Vertical Extent of Spring-time Ozone Asymmetry Over Antarctica as Seen by GOMOS and MLS	5311 EGOMO	Niilo Kalakoski, Viktoria Sofieva, Erkki Kyrölä
Forest Fires in China, an End to End Approach: Detection, Cartography and Atmospheric Impact	5258 Forest Fires	Pablo Salvador, Jose Luis Casanova, Julia Sanz, Abel Calle
From Schistosomiasis Vector Habitats Identification to Human Rransmission Risk Mapping, in the Poyang Lake Area (Jiangxi Province, PR China)	5264 Wetlands	Tiphane MARIE and Hervé YESOU
Water Bodies Detection Quality on Multi-resolution Imagery and Relationship Between Water Extent and Water Level, Case of Poyang Lake (P.R. China)	5264 Wetlands	Claire HUBER, Pr Xijun LAI, Carlos URIBE, Huang Shifeng, Tiphane MARIE, CHEN Xiaoling, and Hervé YESOU
Rapid Mapping and Monitoring of the 2010 Flood Events in Central and Northern Eastern China within the DRAGON 2 Programme	5264 Wetlands	Claire HUBER, Pr LAI Xijun, PR HUANG Shifeng, CHEN Xiaoling and Hervé YESOU
Application of Remote Sensing Technology in Disaster Monitoring in China in the Recent Years	5281 Water Resources	Li Xiaotao, Xin jingfeng, Huang shifeng, Li jiren
Remote Sensing Data and Energy Water Balance Model for Hydrological Processes Simulation in the Upper Yangtze River Basin	5281 Water Resources	Chiara Corbari, Marco Mancini, Jiren Li, Jinfeng Xin, Jianli Zhang, Xingnan Zhang, Xiaoxiang Zhang, Bob Su
Subway Tunnels Tracking in Shanghai Using Cosmo-SkyMed PSInSAR	5297 Topographic measurement	Zhiying Wang, Daniele Perissin, Fabio Rocca & Hui Lin
Using Mutual Information for Stereo Radargrammetry with TerraSAR-X	5297 Topographic measurement	Heming LIAO, Timo BALZ, Xueyan HE, Lu ZHANG, Mingsheng LIAO
Rapid Geocoding of Satellite SAR Image with Refined RPC Model	5297 Topographic measurement	Lu ZHANG, Timo BALZ, Mingsheng LIAO
Interseismic Strain Accumulation Across an Active Thrust System: an InSAR Case Study in the Himalayas	5305 Seismology	Raphaël GRANDIN, Marie-Pierre DOIN, Laurent BOLLINGER, Béatrice PINEL-PUYSSEGUR, Romain JOLIVET, Gabriel DUCRET, Cécile LASSERRE, Gilles PELTZER
Time Series Analysis of Strain Accumulation Along the Haiyuan Fault, China Over the 1998-2010 Time Period from ERS and ENVISAT InSAR data	5305 Seismology	Romain Jolivet, Cecile Lasserre, Marie-Pierre Doin, Gilles Peltzer, Jianbao Sun, Rong Dailu, Zheng-Kang Shen & Xu Xiwei
DEM Corrections Before Unwrapping in a Small Baseline Strategy for INSAR Time Series Analysis	5305 Seismology	G. Ducret, M.-P. Doin, R. Grandin, C. Lasserre, S. Guillaso
Object Based Forest and Non-Forest Classification in Northeast China using ENVISAT ASAR data	5314 Forest Ecosystems	Feilong Ling, Yanping Huang, Reik Leiterer, Johanness Reich, Maurizio Santoro, Christina Schumullius and Zengyuan Li
Forest Cover Change Mapping in Northeast China using ERS SAR and ENVISAT ASAR Data	5314 Forest Ecosystems	Feilong Ling, Reik Leiterer, Yanping Huang, Maurizio Santoro, Erxue Chen, Zengyuan Li, Christina Schumullius
Utilizing Satellite-based Height-volume Allometry for the Parameterisation of Growing Stock Volume of Dense Forest	5314 Forest Ecosystems	Johannes Reiche, Maurizio Santoro & Christiane Schumullius
Validation Approach of SAR Based Forest Stem Volume Maps Using Forest Inventory Data	5314 Forest Ecosystems	Kerstin Traut, Sina Truckenbrodt, Feilong Ling, Yanping Huang, Maurizio Santoro & Christiane Schumullius
Estimation of Synergies Between SAR Based Forest Stem Volume Maps and Global Land Cover Products	5314 Forest Ecosystems	Reik Leiterer, Maurizio Santoro & Christiane Schumullius
Refinement of BuiltArea Extraction Using A Novel MOuntains EXtractor Approach (MOEX)	5317 Urbanisation	Massimiliano Aldrighi & Paolo Gamba
Specific Correction of Topography Effects on SAR Backscatter : Applications to Forest Biomass Retrieval	5319 CO2 in Crop lands	Ludovic Villard & Thuy Le Toan

2011 Prague Symposium - [status of YSPS 2 May 2011]

Application of Contourlet Method for Multiscale Transforms in Remote Sensing	5322 Hydrology	Liang Ji & Wang Jian
Coupling of Meso Scale Atmospheric Model with AATSR Data for Turbulent Heat Flux Parameterisation over the Heihe River Basin	5322 Hydrology	R. Faivre, J. Colin & M. Menenti
Land Surface Flux Estimate by Bi-angular Radiance Measurements from AATSR in a Semi-arid Region and Validation by Footprint Analysis	5322 Hydrology	Li Jia, Jie Bai, Xiaoying Ouyang
Surface Soil Moisture in the Water Source Region of the Yellow River	5341 Drought	L.Dente, Z.Vekerdy, J.Wen, Z.Su
Assessing Changing Landslide Susceptibility Following the Construction of the Three Gorges Dam, China, Using High Resolution TanDEM-X DEMs and Phase Correlation of TSX SAR Time Series	5343 Monitoring 3 Gorges	Hayley Larkin (main author) and Jan-Peter Muller
Sea surface salinity remote sensing in the Bohai Sea	5292 River Deltas	QING Song, CUI Tingwei, MA Yi, ZHANG Jie
Satellite retrieval of suspended particle size in the Bohai Sea	5292 River Deltas	QING Song, CUI Tingwei, MA Yi, ZHANG Jie
Improved Radar Modulation Transfer Function for Oceanic Internal Waves	5316 Mon. China Seas	Dagestad K-F., Hansen M.W., Kozlov I., Kudryavtsev V., Johannessen J. A.
Typhoon Induced Ocean Waves from Multi-Altimeter Data	5316 Mon. China Seas	Jingsong YANG, Yufang PAN, Qingmei XIAO
Spatial and Temporal Characteristics of Upwelling Along the Zhejiang Coast of the East China Sea	5316 Mon. China Seas	Xiulin Lou & Aiqin Shi
Sea Ice Detection in Bohai Sea	5316 Mon. China Seas	Peng Chen & Juan Wang
Polarization Scattering Characteristics of Ships	5316 Mon. China Seas	Juan Wang, Jingsong Yang, Peng Chen
